### National Skill Training Institute (NSTI)

August 2019 to July 2020

Vidyanagar . Hyderabad

Crafts Instructor Training Scheme (CITS)

80%

## Projects

### MyBoutique.com

July 2024 to August 2024

E-Commerce Website

MyBoutique

- Built a responsive, user-friendly interface for the MyBoutique.com E-commerce platform using React, Redux, JavaScript, HTML5, and CSS3.
- Engineered modern UI components with Chakra UI and Ant Design, leading to an increase in user experience and conversion rates by 60%.
- Optimized** state management through Redux, resulting in a 30% improvement in overall application performance.
- Collaborated** with back-end developers to seamlessly integrate APIs, ensuring consistent data flow and platform functionality.
- Committed** to delivering scalable, maintainable, and high-performance web solutions, effectively driving user engagement and sales.

React, Redux, JavaScript, HTML5, CSS3, Redux Thunk, ChakraUI, Ant Design

### Amazon Clone

April 2024 to May 2024

E-Commerce Clone Project

Amazon Clone

- Developed an Amazon-like e-commerce platform** (100%) that mimics core features of the real Amazon website using HTML, CSS, and JavaScript.
- Implemented responsive web design** (90%) using CSS Flexbox and Grid to ensure the website is mobile-friendly across various devices.
- Ensured website performance optimization** (80%) by minimizing CSS and JavaScript files, improving load times by 30%.
- Employed best practices for HTML and CSS** (100%), including semantic markup and cross-browser compatibility, ensuring consistent user experience.
- Conducted user testing** (70%) to gather feedback and iterated on the UI/UX design for improved usability.

VS Code, Vercel, JavaScript, HTML, CSS

### Swiggy\_Clone

August 2024 to September 2024

E-Commerce Website

Swiggy\_Clone

- Frontend Development:** Developed a highly responsive food delivery web app interface using **React.js**. Implemented reusable components and optimized page load performance.
- UI/UX Design:** Styled the application using **Tailwind CSS** and **Chakra UI** to create a seamless and visually appealing user experience. Leveraged Chakra UI's pre-built components for a consistent and accessible design system.
- Icon Integration:** Integrated **React Icons** for intuitive and visually striking user interactions, enhancing the overall user interface.
- Responsive Design:** Ensured full mobile responsiveness and cross-browser compatibility, optimizing the platform for both desktop and mobile users.
- Component Reusability:** Focused on component reusability to facilitate easy scalability and maintenance of the application, adhering to industry-standard frontend best practices.

React.js, Tailwind CSS, Chakra UI, React Icons

## Skills

### Web Technologies (x/5)

JavsScript - 4 | HTML/HTML5 - 4.5 | CSS - 4.6 | JavaScript Object Notation (JSON) - 4 | Document Object Model (DOM) - 4.2 | Asynchronous Programming Interface (API) - 4

### Web Frameworks (X/5)

React.js - 4 | Redux.js - 4.6 | Redux Thunk - 4 | ChakraUI - 5 | Ant Design - 4.7 | Bootstrap - 4

### Tools

Webpack | Git | NPM | yarn | GitHub | GitLab | React Developer Tools | Redux DevTools | vercel | Netlify
