WORK EXPERIENCE

Hue Logics

Associate Software Engineer - Frontend　　　　　　　　　　　　　　　　March 2025 - Present

- Built intuitive web interfaces for end users using React.js, Tailwind CSS, and component-based architecture.
- Participated in code maintenance and performance optimization of large-scale frontend systems.
- Contributed to frontend development from a user-first perspective, ensuring usability and responsiveness .

Dihaari

Software Engineer Intern　　　　　　　　　　　　　　　　　　　　　　Dec 2024 - Jan 2025

- Assisted in frontend development for internal tools with a focus on modular and scalable code.
- Practiced agile development and collaborated closely with UI/UX designers and backend developers.

EDUCATION

Masai School

Front-end Development　　　　　　　　　　　　　　　　　　　　　　Jan 2024 - Jul 2024

PROJECTS

Taylor Meals: Smart Recipe Finder for Busy Professionals ↗　　　Nov 2024 - Dec 2024

- Developed a responsive B2C web application using **React.js**, **Tailwind CSS**, and modern frontend tools to deliver personalized recipe suggestions for busy professionals.
- Integrated an **interactive map feature** to display the country of origin for selected recipes, enhancing user engagement and global context.
- Implemented **RESTful API integration** and optimized state management with **React Hooks** for real-time data fetching and high performance.

My Boutique E-Commerce Website ↗　　　　　　　　　　　　　　Jul 2024 - Aug 2024

- Built a responsive and user-friendly **B2C e-commerce website** using **React.js**, **Redux**, **JavaScript**, **HTML5**, and **CSS3**.
- Designed and implemented modern UI components with **Chakra UI** and **Ant Design**, ensuring visual consistency and ease of use.
- Enhanced the customer experience and interface performance, contributing to a **60% increase in conversion rates**.

Swiggy Clone - food ordering Q-commerce Clone ↗　　　　　　　　Aug 2024 - sep 2024

- Developed a **responsive food ordering web app** using **React.js**, focusing on scalable, maintainable, and reusable components.
- Implemented a **visually consistent UI** using **Tailwind CSS** and **Chakra UI**, enhancing cross-platform accessibility and user experience.
- Delivered an intuitive and efficient **B2C solution**, aligned with modern web standards and optimized for performance.

Amazon Clone E-Commerce Website Clone ↗　　　　　　　　　　　Apr 2024 - May 2024

- Recreated an **Amazon-style B2C e-commerce platform** using **HTML**, **CSS**, and **JavaScript**, replicating core shopping functionalities.
- Focused on building a **seamless and user-friendly interface**, ensuring smooth navigation and usability.

SKILLS

- **Frameworks & Libraries:** React.js, Redux, Tailwind CSS, Chakra UI, Bootstrap. **Programming Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frontend Development:** B2B/B2C Web Solutions, Real-time Web Interfaces, Responsive Design, Cross-Browser Compatibility, Web Accessibility Standards, UI/UX Design Principles
- **Tools & Platforms:** Git, GitHub, Version Control, RESTful APIs, VS Code, Chrome DevTools
- **Performance Optimization:** API Integration, Lazy Loading, Component-Based Architecture, State Management with React Hooks, Code Splitting, Debugging.
- **Project & Communication:** Basic Project Management, Agile Workflow, English Communication for International Collaboration
- **Soft Skills:** Effective Communication, Problem-Solving, Team Collaboration, Time Management, Creativity, Adaptability, Customer-Centric Thinking

Certificate

Software Developer Internship Certificate 🗗
